

CAREER OBJECTIVE

Information Technology student building a foundation in Software Development, Web Technologies, Python, and Artificial Intelligence while gaining practical exposure through projects, workshops, certifications, and hackathons.

WORK EXPERIENCE

Artificial Intelligence And Machine Learning • Internship

Jun 2025 - Jul 2025

IBM Skillsbuild, Virtual

EDUCATION

Bachelor of Engineering (B.E), Information Technology

2024 - 2028

Bharati Vidyapeeth College Of Engineering

TRAININGS / CERTIFICATIONS

Workshop On Basic Programming Using Python

Jan 2026

FOSSEE, Virtual

Computer Networks And Internet Protocol

Jan 2026 - Apr 2026

NPTEL, Virtual

Web Development Fundamentals

Sep 2025 - Oct 2025

IBM SkillsBuild, Virtual

Generative AI Bootcamp

Sep 2025

Bharati Vidyapeeth College Of Engineering, Navi Mumbai

Artificial Intelligence Fundamentals

Jun 2025 - Jul 2025

IBM SkillsBuild, Virtual

Python Complete Course For Python Beginners

Apr 2025

udemy, Virtual

PORTFOLIO

[GitHub link](#)

[Portfolio link](#)

PROJECTS

File Organizer

Mar 2026 - Apr 2026

Developed a Python utility to automatically sort files into structured folders. Strengthened understanding of automation, logic building, and file management.

[Smart Study Planner](#)

Oct 2025

- Built a student-focused productivity project to organize study schedules, tasks, and learning goals. Improved planning structure and usability through a clean and functional interface.
 - Tech Stack: HTML, CSS, JavaScript

Resume Builder

Apr 2026 - Present

Building a Full Stack Resume Builder application using React.js, Spring Boot, and MySQL, focused on helping users create, manage, and download professional resumes securely.

SKILLS

- Python
- Creative Thinking
- CSS3
- Artificial intelligence
- Coordination
- JavaScript
- Computer Networks
- HTML 5
